

AXIAL CUT/FORM DIES

FIXED AND ADJUSTABLE AXIAL CUT AND FORM DIES

*Cut and Form Axial Components to right angle, stand-off, SMT, and stress relief
Choose adjustability or fixed dimensions*

Capable of Automatic or Manual Operation

- Choose the **CF Series** with a tape or loose feeder for automatic operation. Cut and form as fast as 15,000pph.
- Choose the **SS-1A** for foot pedal actuation, single feed operation. Ideal for low volume applications

Whether your volume is high or low, Manix has the die for your application. Choose from a variety of dies including stand-off, snap-in, lock-in, stress relief, SMT, and vertical. Fixed dies offer the notion of repeatability whereas adjustable dies allow maximum flexibility.

Choose from a Variety of Lead Form Dies
