

FP-1 HAND PRESS

ECONOMICAL HAND PRESS FOR MANIX FLAT PACK DIES

*Cut and Form Dies Attach in Minutes.
Lower Cost Maximizes Profits.*

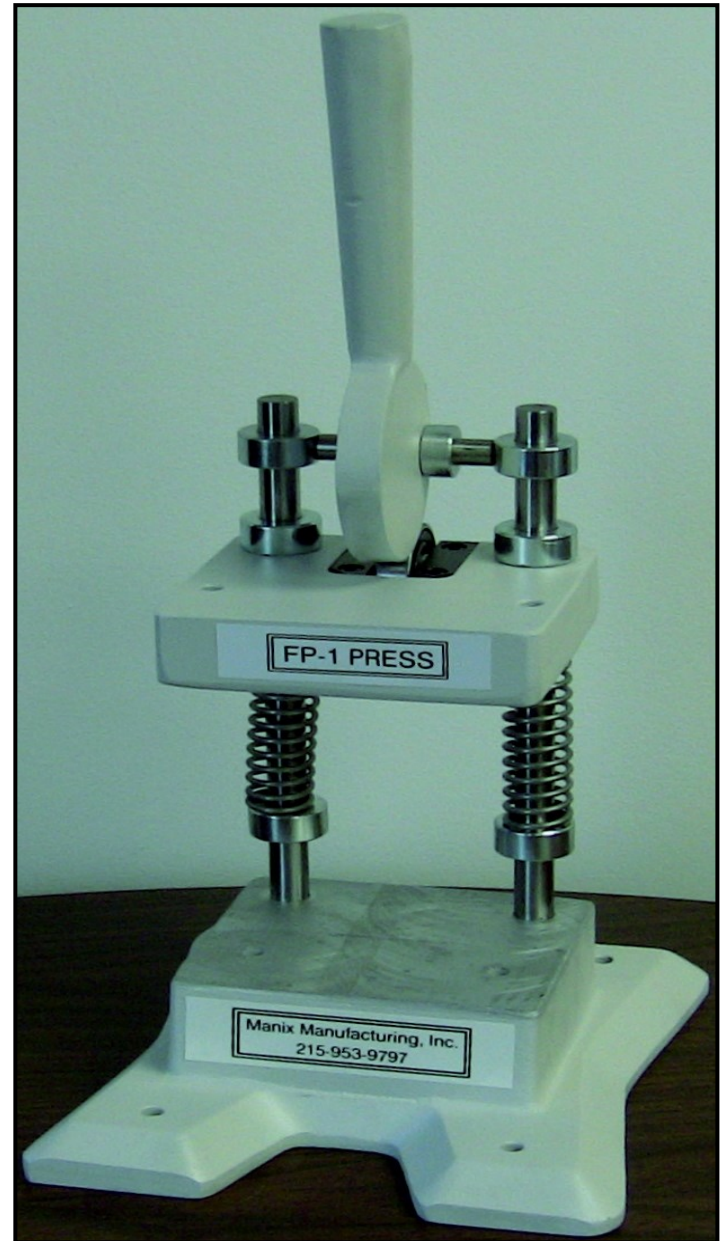

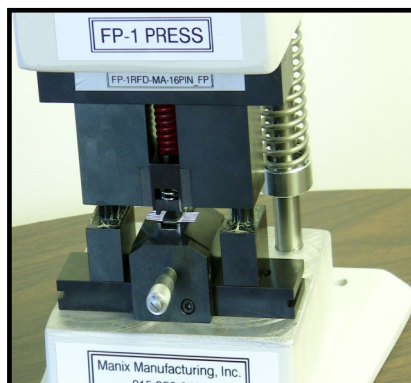

Easily install flat pack cutting and forming dies with the economical **FP-1** hand operated press. Compact in size, but large in results, the **FP-1** offers an economical approach to flat pack cutting and forming.

An easy to use ergonomic handle eases operator fatigue. Two mounting screws top and bottom attach the cut and form die to the press.

Digital Readouts Ease Set-Up

- Activation:** Hand Lever
Rate of Forming: Up to 500 components per hour.
Size: 7"W X 8"L X 15"H
178mm X 203mm X 381mm
Weight: 8 lbs.
3.6 kg.
Mounting Holes: 4.25"W X 6"L
108mm X 152mm

The **FP-1** accepts fixed two and four sided flat pack cutting and forming dies. These dies are available with or without a micrometer to adjust the stand-off height.

Consult your Manix lead forming specialist to see if the FP-1 can accept the cutting and forming die that meets your forming specification.
