

FP-5 PNEUMATIC PRESS

CUT AND FORM FLAT PACKS WITH EXTREME ACCURACY

Heavy-Duty Cylinder Ensures Repeatability Palm Switches Provides Maximum Safety

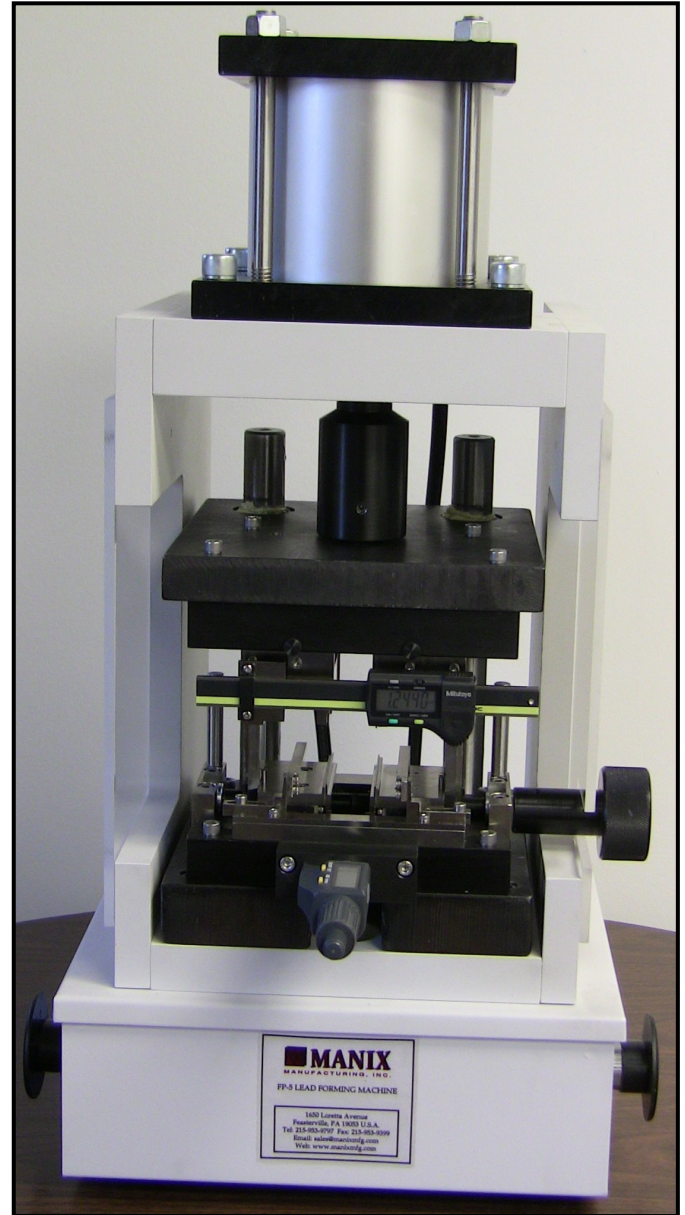

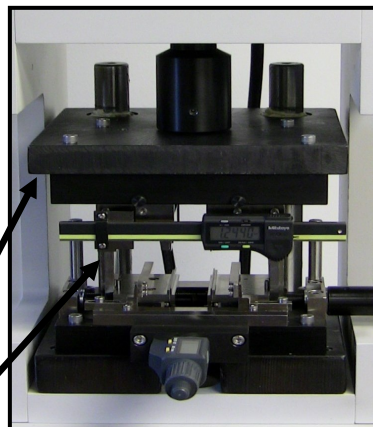

Easily install flat pack cutting and forming dies with the unique **FP-5** pneumatic press. Each press includes an integrated die set, making die changeover easy and less costly. Dual interlock palm switches ensures operator safety. Fully pneumatic, this sturdy press includes a heavy duty cylinder, an integrated die set, internal pneumatic components, and dual palm switches. Simply connect your press to your 80 psi air supply, install the die of your choice, and you are ready to form.
