

# Variocut

Radial Component Lead Cutting Machine. The proven VARIOCUT machine cuts the radial leads of taped components of all kinds to the desired length, eliminating the need to cut the component leads after soldering. The VARIOCUT's operating principle is based on the efficient CUTBEND principle. The VARIOCUT is characterised by its easy handling, high performance and favourable price. It is handy and can be mounted to any table using it's screw clamp. The machine can be combined with the practical accessories of the CUTBEND.

## Technical Specifications

Gross Weight:- 1.9kg

Dimensions (without crank): L 175 / W 145 / H 160mm

Crank Length:- 160mm      Output: up to 40,000 pcs per hour

Processing dimensions:

Head type	A	B	C	D
<input type="checkbox"/> 12.7	0.5 - 0.8mm	Max - 35mm	1.0 - 8.0mm	12.7mm
<input checked="" type="checkbox"/> 15.0	0.5 - 0.8mm	Max - 35mm	1.0 - 8.0mm	15.0mm
